RE: Status of Employee Suggestions

- 1376) More time needed to make a complete evaluation in collaboration with RC/RQM  
1847) and Cable Sec. Switch from ditto to Offset has introduced some complicating  
1937) factors, yet will in the long run probably result in more substantial savings.  
Expect a final evaluation within about 90 days.

Full report on status made to [ ] 7/12/56 which he passed on to IAC.  
Medical Staff and OP have long standing differences which they are still  
trying to resolve. I asked [ ] today to try to help resolve these  
differences and push them to an early solution. Will probably require from  
30-60 days to wind up.

1102 We answered IAC 10 Dec 54 recommending adoption subject to OS amendment of  
[ ] I recall seeing it back in RMS sometime later, and as I recall it  
was in your hands and you were considering it in conjunction with your  
special envelope-courier receipt project, which I believe also covered several  
other suggestions.

We last had 19 Jan 55. We had obtained comments from CL and Commo. and based  
on this date had referred the suggestion at that time to [ ]  
TSS [ ] and M/S [ ] for evaluation. We have never heard of it. 25X1A9A

1684 Complete file is in GAO where it was left for informal reconsideration several  
weeks ago. IAC was aware of this action. We have no idea as to when GAO  
will be finished with their reevaluation of our modified proposal. I am sure  
that it will probably be at least 30-60 days though.

1309 Not on your list. A new Working Group to Study the Application of Security  
Indications on Intelligence Reports is in process of being constituted by  
the Intelligence Advisory Committee's Ad-Hoc Committee on Information Process-

represent CIA in this study. The suggestion definitely ties in with this  
study. Inasmuch as coordination CIA-wide as well as IAC-wide may be required  
it is impossible to say how much time will be required to answer this study  
suggestion. We cannot now say if it will be favorably considered inasmuch as  
it is very controversial and there is considerable disagreement in the Agency.
